---

I am offering some matching costs versus my legal fees and some initial meeting for a donation to the PAN Mass. I have Hodgkins, which is a very treatable form of cancer. I have been in remissions for about 7 years. I was treated at Dana Farber and saw all sorts of people who were battling cancer including children in the Jimmy fund clinic.

I have signed up for my thirds bike ride at Pan MA- two days 192 miles to support cancer research which will ultimately save lives. I have raised over \$14,000 in two years. If you let me know, I will provide a recution in initial fees up to \$100 and can discuss the options ahead of time. My website is [pmc.org](http://pmc.org) under nesson. Thank you.
